

UIP Review Selection Guide for District Admin using the UIP Online System

All schools and districts are required to regularly submit Unified Improvement Plans (UIPs). CDE reviews and provides feedback on UIPs for schools and districts that are identified for improvement under the state (Priority Improvement and Turnaround) or federal (Comprehensive Support under ESSA) accountability systems.

This document is intended for use by district-level staff coordinating UIP Review efforts for Unified Improvement Plan (UIP). This guide includes step-by-step instructions for how District Admin can select the Review Type for identified schools in the district.

New UIP Review Options in 2024-2025 for Identified Districts & Schools

In the 2024-25 year, sites that will have their UIPs reviewed by CDE can choose from three different formats for this review and feedback:

- NEW: UIP Consultation (pre-submission, opt in) – available on request
- Full Plan Quality Review (post-submission, opt in) – available on request
- NEW: Requirements Check (post-submission, default) – default review type for sites that do not opt for either a Consultation or a Full Plan Quality Review

More detailed information about the Review Types for Identified Schools can be found on the UIP: [CDE Reviews & Feedback Overview document](#).

The district user will utilize the Review Type column to indicate what type of review the CDE should complete for the identified school. More detailed information about the Review Types for Identified Schools can be found on the UIP: [CDE Reviews & Feedback Overview document](#).
