Section 7 - Capital Construction Assistance Fund Projected Fund Balance	26

Executive Summary

In 2008, the General Assembly of the State of Colorado enacted the Building Excellent Schools Today Act or “BEST”, in order to repair or replace Colorado’s most needy public school facilities. The Colorado Department of Education’s Division of Capital Construction manages BEST—a competitive grant program available to all public school districts, charter schools, institute charter schools, boards of cooperative educational services and the Colorado School for the Deaf and Blind.

Applications are reviewed on a yearly cycle and recommended for funding by the Capital Construction Assistance Board (CCAB)—a nine-member appointed board who, in conjunction with staff, review grant applications for the current fiscal year. The Division has eight in-house assessors working to complete condition analyses and adequacy surveys for every facility in the state by 2021, and to reassess every five years thereafter to help the state make informed decisions.

BEST is funded through multiple revenue sources: State Land Board proceeds, marijuana excise tax, Colorado Lottery spillover funds, and interest accrued in the Public School Capital Construction Assistance Fund. Matching funds are required by statute and calculated based on a series of factors (from the district’s bond election efforts over the past 10 years to the district’s assessed value per pupil).

This BEST Annual Report is submitted to the General Assembly pursuant to Section 22-43-7-111, C.R.S.

Section 1 – Aggregate Financial Assistance Provided

Section 22-43.7-111(1)(a)(I) & (II), C.R.S.: An accounting of the financial assistance provided through the prior fiscal year that includes:

(I) A statement of the aggregate amount of financial assistance awarded through the prior fiscal year, including statements of the amount of grants provided, and the amount of payments made and payments committed to be made but not yet made in connection with lease-purchase agreements;

(II) A statement of the aggregate amount of financial assistance provided as grants and the aggregate amount of payments made in connection with lease-purchase agreements during the prior fiscal year;

Sec. 1: An accounting of the financial assistance provided through the prior fiscal year that includes: a statement of the aggregate amount of financial assistance awarded through the prior fiscal year, including statements of the amount of grants provided, and the amount of payments made and payments committed to be made but not yet made in connection with lease-purchase agreements.

¹Note: State COP Payments include principal and interest. Payments include applicable Federal subsidies as of June 2017.

²2015 Supplemental Finance Series funded one project using unexpended State Expense Funds from the 2010 B & C, 2010 D, E & F, & 2011 G financing series.

Section 2 – Brief Project Descriptions and Committed Funds

Section 22-43.7-111(1)(a)(III), C.R.S.: A list of the public school facility capital construction projects for which financial assistance has been provided, which must include a sub list of projects for which financial assistance has been provided in the form of technology grants pursuant to section 22-43.7-109 (13), a brief description of each project, a statement of the amount and type of financial assistance provided for each project and, where applicable, the amount of financial assistance committed to be provided for but not yet provided for each project, a statement of the amount of matching moneys provided by the applicant for each project and, where applicable, the amount of matching moneys committed to be provided by the applicant but not yet provided for each project, and a summary of the reasons of the board and the state board for providing financial assistance for the project;

Please note that:

- A sub list of technology grants is not included as no technology grants were applied for in FY 2017-18.
- A more comprehensive summary list of project descriptions can be found at: <http://www.cde.state.co.us/cdefinance/allbestprojectsummaries>
- All completed projects from Fiscal Year 2008-09 through Fiscal Year 2015-16 can be found at: <http://www.cde.state.co.us/cdefinance/completedprojects>
- Per statute, the Capital Construction Assistant Board and the State Board of Education provide financial assistance for all projects based on available funding and the following prioritization of need:
 1. Projects addressing health, safety, security issues & technology
 2. Projects to relieve current overcrowding
 3. All other capital needs.

Note: Twelve of the projects above were recommended by the Capital Construction Assistance Board and approved by the State Board of Education for financial assistance, but were not funded this cycle. These projects were designated as back-up projects and there were not enough funds available this cycle to provide financial assistance:

- Skyview Academy
- Limon 4-J
- Alamosa RE-11J
- Mapleton 1
- Greeley 6
- Greeley 6
- Kipp Sunshine Peak Academy
- Lincoln Academy
- La Veta RE-2
- Ricardo Flores Magon Academy
- Delta County 50(J)
- Alta Preparatory School

Note: Six of the projects above were recommended by the Capital Construction Assistance Board and approved by the State Board for financial assistance, but were not funded this cycle for the following reasons:

- Manzanola 3J, New PK-12 School – awarded project and prioritized above the available funding line, but failed local bond election for matching funds.
- Hayden RE-1, Jr/Sr HS Replacement and ES Renovation - back-up project, other projects were prioritized above them and there were not enough funds available this cycle to provide financial assistance.
- Atlas Preparatory School, MS Roof Replacement - back-up project, other projects were prioritized above them and there were not enough funds available this cycle to provide financial assistance.
- Montrose County RE-1J, CMS Roof Replacement - back-up project, other projects were prioritized above them and there were not enough funds available this cycle to provide financial assistance.
- Swallows Charter Academy, Modular Replacement – Brick and Mortar - back-up project, other projects were prioritized above them and there were not enough funds available this cycle to provide financial assistance.
- Englewood 1, Bishop ES Replacement - back-up project, other projects were prioritized above them and there were not enough funds available this cycle to provide financial assistance.

Section 3 – Brief Summary of Projects Funded Previous Cycle

Section 22-43.7-111(1)(a)(IV), C.R.S.: A list of the public school facility capital construction projects for which financial assistance has been provided during the prior fiscal year, which must include a sub list of projects for which financial assistance has been provided in the form of technology grants pursuant to section 22-43.7-109 (13), a brief description of each project, a statement of the amount and type of financial assistance provided for each project, and a statement of the amount of matching moneys provided by the applicant for each project.

- A sub list of technology grants is not included as no technology grants were applied for in FY2017-18.

BEST FY2017-18 Grant Projects which Received Funding - Summaries

Eads / Main Electrical Service Upgrade

This project addresses health and safety issues surrounding the current electrical service, including a primary power pole/transformer that is leaning over a playground, and secondary overhead power lines that are sagging within inches of a metal roof, in addition to regular outage issues as a result of outdated power service. This project will enhance student achievement by providing safe and reliable electrical service run underground to avoid overhead power concerns, and with increased capacity to address student needs into the future.

This project is recommended for BEST Cash funding as follows:

Grant Amount \$54,781; District Contribution \$39,669 or 42%, with the source of match coming from the district's General Fund.

Mountain Valley RE-1 / PK-12 Replacement

This project addresses health and safety by replacing the District's PK-12 school facilities. Aged, and failing, the current facilities are in a state of disrepair. Nearly every building system has failed in the main facility, as well as in the 1933 cafeteria. Wall partitions in the cafeteria have reached a state of failure in which plumbing fixtures such as urinals can no longer be held in the wall, and settling of the facility has caused door jambs to shift and no longer latch, requiring books to be jammed in to keep doors shut. Also present are numerous site deficiencies and a lacking security infrastructure. This project will enhance student achievement by replacing the failed school buildings with a new safe, secure, and healthy facility appropriate for a 21st Century learning environment. The project qualifies for the High Performance Certification program and intends to target the highest certification possible.

This project is recommended for BEST Lease Purchase funding as follows:

Grant Amount \$27,072,252; District Contribution \$3,724,699 or 12%, with the source of match coming from the district's 2017 bond election.

Weld RE-3J / Hudson ES Addition/Renovation

This project addresses a variety of health and safety concerns, including friable asbestos under leaking roofs, moisture intrusion and resulting water damage, mechanical and electrical deficiencies, security weaknesses, and site drainage issues, by partially replacing and renovating the existing school. This project will enhance student achievement by providing a modern, safe, secure, and high performing elementary school for the students.

This project is recommended for BEST Cash funding as follows:

Grant Amount \$4,240,354; District Contribution \$15,033,982 or 78%, with the source of match coming from the district's 2016 bond proceeds.

Yuma 1 / ES/MS HVAC Control Upgrades

This project addresses health and safety concerns resulting from malfunctioning mechanical heating and cooling controls by replacing the controls system. The current controls no longer function, leading to wide temperature fluctuations in classrooms. This project will enhance student achievement by providing an appropriate indoor environment for student learning.

This project is recommended for BEST Cash funding as follows:

Grant Amount \$129,456; District Contribution \$110,277 or 46%, with the source of match coming from the district's general fund.

Roaring Fork RE-1 School District / Safety and Security at Two High, Three Middle, and One Elementary School

This project addresses health and safety issues by correcting locking and exiting deficiencies, secure points of entry, cameras, access systems, phones and intercom, consistent signage, and safety and operational standardization across their district. This project will enhance student achievement by making the school environment more secure. Six of the district's thirteen schools will benefit from this grant. Community members, parents, staff, fire department and law enforcement set the vision and identified the standards for safety and security in the district.

This project is recommended for BEST Cash funding as follows:

Grant Amount \$531,909; District Contribution \$1,032,530 or 66%, with the source of match coming from the district's 2016 bond fund.

Brush Re-2J / MS Replacement & HS Renovation

This project addresses a variety of health and safety issues, including asbestos materials throughout, unsecured entrances, mechanical failures, extensive roof leaks, water damage, code deficiencies, sanitary waste concerns, and electrical deficiencies, by replacing a middle school and partially replacing a high school with an addition and renovation at the high school site. This project will enhance student achievement by providing a modern, safe, secure, and high performing middle school and high school. The new addition and renovation project will target Collaborative for High Performance Schools Verified Leader certification.

This project is recommended for BEST Lease Purchase funding as follows:

Grant Amount \$27,637,690; District Contribution \$32,444,245 or 54%, with the source of match coming from 2016 bond proceeds.

Del Norte C-7 / New PK-12 Consolidated

This project addresses health and safety issues by replacing the district's deficient school facilities with a new, consolidated school facility which will house all grade levels, PK-12. Currently, the district maintains more than six facilities which are all in a state of disrepair with a range of deficiencies from compromised structural foundations and failed major building systems to the presence of hazardous materials including lead paint, radon, and asbestos, and unsecured, detached, and spread out campus layouts which are dissected by main city streets. This project will enhance student achievement by consolidating all students into one safe, secure and healthy facility which meets the needs of a 21st Century learning environment. In addition, the project solution will downsize the District's current square footage by nearly 57,000 square feet. The project qualifies for the High Performance Certification Program and will target the highest certification possible.

This project is recommended for BEST Lease Purchase funding as follows:

Grant Amount \$27,168,587; District Contribution \$17,913,517 or 40%, with the source of match coming from the district's planned November 2017 bond election.

Greeley 6 / Dos Rios ES Roof Replacement

This project addresses health and safety by replacing a leaking and failing roof membrane. The current roof membrane is compromised and beyond its life expectancy. The resulting leaks are damaging ceiling tiles, drywall, and carpet, which could lead to mold and indoor air quality issues if left unchecked. This project will enhance student achievement by replacing the roof membrane and preventing further water damage. The new roof is anticipated to have a twenty to thirty year life span.

This project is recommended as a backup project for BEST Cash funding as follows:

Grant \$584,309; District Contribution \$194,770 or 25%, with the source of match coming from the district's capital reserve projects fund.

Cotopaxi RE-3 / Districtwide Safety/Security Upgrades

This project addresses health and safety issues by upgrading and improving the safety and security of Cotopaxi's K-12 multiple building campus. Currently, the campus lacks: controlled access to its many exterior doors, proper communication between facilities, students, and staff, and the main entry plaza with no slope for drainage allows the accumulation of ice buildup every day during winter. This project will enhance student achievement by upgrading the security infrastructure at the campus with electronic access control, appropriate audio communication to all school buildings so that in the event of emergency each building can receive proper notification, and improving the main entry plaza.

This project is recommended for BEST Cash funding as follows:

Grant Amount \$208,109; District Contribution \$177,278 or 46%, with the source of match coming from the district's capital reserve fund.

Plainview RE-2 / PK-12 HVAC and Safety Improvements

This project addresses health and safety concerns, including a failing boiler, corroded piping, improperly vented kitchen hood, and failed backup generator, by completing a full mechanical system replacement, including required code improvements. This project will enhance student achievement by replacing the mechanical system, replacing the generator, re-working the kitchen hood to allow food preparation, replacing the backup generator to provide reliable power, and providing code improvements as required.

This project is recommended for BEST Cash funding as follows:

Grant Amount \$2,730,215; District Contribution \$143,696 or 5%, with the source of match coming from the district's capital reserve fund.

Durango 9-R / ES Partial Roof Replacement

This project addresses health and safety by replacing sections of roof over the elementary school which have failed. The sections to be replaced are beyond warranty life and over time have deteriorated; blisters have developed and ruptured allowing water intrusion into the facility and the low slope pitch of the roof increases the amount of water pooling in degraded areas. This project will enhance student achievement by removing the current failed roof membrane, flashings, and damaged insulation and replacing the roof system with a new, fully

adhered membrane; they will replace damaged insulation, and install crickets for better slope to drain run-off. The new roof will include a 20 year warranty.

This project is recommended for BEST Cash funding as follows:

Grant Amount \$78,921; District Contribution \$83,298 or 63%, with the source of match coming from the district's capital construction fund.

La Veta RE-2/ Elementary School Gym Heating, Ventilation, and Air Conditioning (HVAC) – Bleacher Upgrades

This project addresses health and safety with the upgrade of the elementary school gym HVAC and the replacement of the existing bleachers. The existing gym's forced air heating system does not meet the requirements for the occupancy of the space and code requirements for use. High carbon monoxide levels have been identified. The bleachers were installed new in 1986 when the gymnasium was built but no longer operate appropriately and a recent inspection identified that the bleachers no longer meet current codes, are no longer safe and should be replaced. This project will enhance student achievement by providing the appropriate conditioning of the gymnasium during school physical education and a bleacher system that meets current codes, is handicap accessible and will operate as designed.

This project is recommended for BEST Cash funding as follows:

Grant Amount \$130,782; District Contribution \$64,415 or 33%, with the source of match coming from the district's capital reserve fund.

Canon City RE-1 / Multiple Schools Upgrades

This project addresses health and safety issues by making necessary upgrades at five of the district's schools. Deficiencies at these schools include: failed building envelope systems such as roofing and aged, leaky single pane windows, asbestos containing materials which might be exposed to students, galvanized steel potable water distribution systems, failed emergency communication and fire alarm systems. This project will enhance student achievement by upgrading all failed building systems, replacing water distribution systems, installing proper fire and audio communication systems for emergency purposes, and upgrading each school's building security with electronic access control.

This project is recommended for BEST Cash funding as follows:

Grant Amount \$4,966,038; District Contribution \$2,674,020 or 35%, with the source of match coming from the district's planned 2017 bond election.

Colorado High School / Colorado High School Safety and Security Renovation

This project addresses health and safety issues by providing a safe and secure entrance to the high school. The school is located in an area where there has been police activity that has required numerous lockouts. This project will relocate the entrance and create a secure vestibule with administrative control over student access. This project will enhance student achievement by providing controlled access to the facility and reduce the potential for unauthorized access.

This project is recommended for BEST Cash funding as follows:

Grant Amount \$408,110; Charter contribution \$540,984 or 57%, with the source of match coming from the charter's general fund.

South Routt School District / Soroco Middle School Roof Replacement

This project addresses health and safety issues by replacing the current roofing system that has failed causing moisture to be present within the system and for water to cascade into the building. The current roof has multiple layers of roofing, a violation of current building codes, and cannot be repaired. This project will enhance student achievement by restoring the building to soundness and eliminating the disruptions to the learning environment caused by water intrusion that rendered portions of the building unusable at times. The new roof will include additional insulation helping to reduce energy use and will have a 30 year warranty.

This project is recommended for BEST Cash funding as follows:

Grant Amount \$214,653; District Contribution \$161,932 or 43%, with the source of match coming from the district's capital reserve fund.

Durango 9-R / ES Asbestos Abatement

This project addresses health and safety issues by abating hazardous materials located in student accessible areas, including asbestos containing ceiling materials in the gym which have been disturbed by balls hitting the ceiling during sports games, wall coverings with asbestos containing mastic in classrooms, window seal caulking on the interior and exterior, and transite panels inside the facility. This project will enhance student achievement by abating all remaining asbestos in the facility ensuring students have a healthy and safe learning environment.

This project is recommended for BEST Cash funding as follows:

Grant Amount \$76,360; District Contribution \$130,019 or 63%, with the source of match coming from the district's capital construction fund.

Greeley 6 / McAuliffe ES Roof Replacement

This project addresses health and safety by replacing a leaking and failing roof membrane. The current roof membrane is compromised and beyond its life expectancy. The resulting leaks are damaging ceiling tiles, drywall, and carpet, which could lead to mold and indoor air quality issues if left unchecked. This project will enhance student achievement by replacing the roof membrane and preventing further water damage. The new roof is anticipated to have a twenty to thirty year life span.

This project is recommended as a backup project for BEST Cash funding as follows:

Grant \$584,309; District Contribution \$194,770 or 25%, with the source of match coming from the district's capital reserve projects fund.

Vilas RE-5/ K-15 Roof Replacement

This project addresses health and safety by replacing the existing roof that currently leaks. The school is located in a 1929 school building that has a roof system that is no longer under a warranty and is leaking. When a weather event occurs the school district is left with the task to relocate students out of the area of the leak and then left with the cleanup of interior finishes. This project will enhance student achievement by eliminating the disruption of the students during inclement weather and also the time it takes to cleanup what has been damaged.

This project is recommended for BEST Cash funding as follows:

Grant Amount \$253,179; District Contribution \$19,065 or 7%, with the source of match coming from the district's general fund and a community foundation grant.

Adams 12 Five Star Schools / Hillcrest Elementary School Roof Replacement

This project addresses health and safety issues relating to water intrusion in the existing roof. The current roof was installed in 1984 and is approaching its end of useful life. The roof system which includes flashing, coping at the parapet and skylights is failing. The district has attempted to patch and repair the roof but these efforts are no longer effective. This project will enhance student achievement by removing and replacing the existing roof system, flashing and skylights with a graveled built up roof system that will have a warranty of 25-30 years. Students will no longer be displaced when a leak occurs and, depending the severity, will not have to worry about air quality concerns or damage done to the interior finishes.

This project is recommended for BEST Cash funding as follows:

Grant Amount \$531,974; District Contribution \$705,174 or 57%, with the source of match coming from the district's 2016 general obligation bond.

Delta County 50(J) / Delta Middle School Addition/ Renovation

This project addresses health and safety by relocating the 6th grade students into the existing 7-8th grade building, moving the remote cafeteria into the middle school building and addressing site conflicts and safe access of the middle school students to the remote gymnasium. In addition the existing 6th grade building and the remote cafeteria have many health and safety concerns with the aging facilities. This project will enhance student achievement by providing a secure facility for grades 6-8 which includes locating the cafeteria within the middle school building. The reconfiguration of the site will separate students and vehicular access and provide a safe means of travel to the remote gymnasium. The project will be designed with high performing criteria for building systems.

This project is recommended for BEST Cash funding as follows:

Grant Amount \$10,517,665; District Contribution \$4,000,072 or 28%, with the source of match coming from the district's restricted capital construction fund.

Wiggins RE-50J / ES Secure Entrance

This project addresses health, safety, and security concerns with existing uncontrolled and unsupervised entrances by building a small addition to the school's entrance. This project will enhance student achievement by preventing unauthorized access, improving supervision at the front office and clinic, securing all exterior doors, and providing a barrier to vehicular entry.

This project is recommended for BEST Cash funding as follows:

Grant Amount \$362,277; District Contribution \$408,525 or 53%, with the source of match coming from the district's 2016 bond proceeds.

Community Prep Charter School / High School Safety Upgrades – Elevator Systems

This project addresses health and safety by providing an upgrade of the existing elevator system to access the three floors of the school. The existing elevator system is an 80 year old pneumatic system that does not stop evenly at floors, and repair parts are no longer available. The upgrade of the system is needed immediately. This project will enhance student achievement by providing a safe and accessible means of access to the buildings three floors.

This project is recommended for BEST Cash funding as follows:

Grant Amount \$49,262.07; Charter Contribution \$77,050.93 or 61%, with the source of match coming from the charter's capital reserve fund.

Deer Trail / New PK-12 School

This project addresses a variety of health and safety issues, including extensive roof leaks, foundation leaks, structural deterioration, mechanical failures, and additional security and safety concerns throughout the existing building by replacing the existing school. This project will enhance student achievement by providing a modern, safe, secure, high performing PK-12 school facility. The new facility will target Collaborative for High Performance Schools Verified Leader certification.

This project is recommended for BEST Cash funding as follows:

Grant Amount \$28,003,821; District Contribution \$6,800,000 or 20%, with the source of match coming from the district's 2016 bond proceeds.

Colorado Springs Early College / High School Roof Replacement

This project addresses health and safety by replacing the existing roof system that is leaking. The existing roof is past its warranty and repairing is no longer appropriate. Due to recent and past weather events the roof continues to leak and disrupt student learning. This project will enhance student achievement by eliminating the disruption of students with the cleanup of the interior damage and provide a warranted new roof.

This project is recommended for BEST Cash funding as follows:

Grant Amount \$698,899; Charter Contribution \$285,466 or 29%, with the source of match coming from the charter's fund balance.

East Otero R-1 / Primary School Addition/ Renovation

This project addresses health and safety by locating all student's kindergarten through second grade into one facility and out of modular buildings. The project will also address the conflict of the gymnasium and cafeteria being in one location and to replace a leaking roof. This project will enhance student achievement by eliminating the concern of young students traveling between buildings, separate the cafeteria and gymnasium which will provide appropriate conditioning of each space and to replace an existing roof that the district has had issues with since it was previously replaced. The new system will be replaced with a warranted built up roof system.

This project is recommended for BEST Cash funding as follows:

Grant Amount \$8,207,468; District Contribution \$3,191,793 or 28%, with the source of match coming from the district's capital reserve fund and a planned bond election in November 2017.

Mancos RE-6 / K-12 Campus Major Renovations

This project addresses health and safety, as well as overcrowding by completing major renovations of the district's K-12 campus. Deficiencies present on the campus include: failed and failing major building systems such as HVAC, electrical distribution, and plumbing systems; inadequate security infrastructure; a site layout which is lacking safe drop off accesses for buses or parents and requires students to cross multiple lanes of traffic to access the campus; an undersized cafeteria and kitchen space which requires the storage of food products and kitchen equipment to be kept in the cafeteria eating space and accessible to students; and multiple disconnected classroom spaces which compromises the ability of the district to maintain proper security. This project will enhance student achievement by renovating the K-12 campus: upgrading and replacing

building systems; building an addition onto the elementary building to connect it to the cafeteria and provide small children with safe access between the buildings; expanding the kitchen and cafeteria space; building a connecting addition onto the currently separate middle school buildings; installing a bus loop for safer student drop off and access to the campus; and renovating the performance center.

This project is recommended for BEST Lease Purchase funding as follows:

Grant Amount \$19,770,130; District Contribution \$4,978,773 or 20%, with the source of match coming from the district's planned 2017 bond election.

Custer County C-1 / Safety/ Security Renovations

This project addresses health and safety issues by upgrading failed major building systems including plumbing, HVAC and mechanical equipment, as well as by renovating the facility to provide access control and proper facility security. The school faced several instances of severe plumbing backups and electrical failures over the past school year which forced temporary closures while the issues were remedied. This project will enhance student achievement by: replacing the failed building systems to prevent future disruption of students' education; renovating the main entry point to provide an entry vestibule which will be connected to administrative offices for proper access control; providing electronic access control to exterior doors currently utilizing lock and key mechanisms which are frequently left open by students. The project intends to utilize geothermal heat pumps to take advantage of the natural resources of their region.

This project is recommended for BEST Cash funding as follows:

Grant Amount \$6,467,146; District Contribution \$4,742,888 or 42%, with the source of match coming from the district's planned 2017 bond election.

Section 4 – Summary of Facility Assessment Scores Previous Cycle

Section 22-43.7-111(1)(b), C.R.S.: A summary of the findings and conclusions of any public school facility inspections conducted during the prior fiscal year.

Adequacy Index: Adequacy Index (AI) is a metric based on a set of questions that measures a school's compliance with set standards. The higher the AI the less the school complies with the standards.

FCI = Facility Condition Index is an industry-standard measurement of the current condition of a facility. To determine FCI, the total cost of remedying deferred maintenance requirements is divided by the current replacement value. Generally, the higher the FCI, the poorer the condition of the facility.

District	Campus	Date of Assessment	Sq. Ft.	Adequacy Index	FCI
Mapleton 1	Valley View ES	7/5/2017	35,690	0.16	0.58

Section 5 – Summary Findings of Facility Condition vs. School Performance

Section 22-43.7-111(1)(c), C.R.S.: A summary of any differences between the common physical design elements and characteristics of the highest performing schools in the state and the lowest performing schools in the state as measured by academic productivity measures such as the state assessments administered pursuant to section 22-7-1006.3 or Colorado ACT results.

This report evaluates the top 100 schools which received a rating of Performance against the 32 schools which received a rating of Turnaround against their facility assessment rating.

Definitions of factors used in determining this statutory requirement:

School Performance Framework 2017: The performance frameworks measure attainment on the four key performance indicators identified in SB 09-163 as the measures of educational success: academic achievement, academic longitudinal growth, academic growth gaps and postsecondary and workforce readiness. State identified measures and metrics for each of these performance indicators are combined to arrive at an overall evaluation of a school’s or a district’s performance. For districts, the overall evaluation leads to their accreditation. For schools, the overall evaluation leads to the type of plan schools will implement. Districts will continue to accredit schools, and they may do so using the state’s performance framework or using their own more exhaustive or stringent framework. More information at: <http://www.schoolview.org/performance.asp>

Assessment Score for Healthy Occupants (FY 2010): The score can be one to five, five being the healthiest. Uses observable or anecdotal data available regarding indoor air quality, building and finish materials, thermal comfort and control, lighting quality, acoustics, and ergonomic design to infer overall school environments.

Facility Condition Index (FY 2017): The Facility Condition Index (FCI) is an industry-standard measurement of the current condition of a facility. To determine FCI, the total cost of remedying deferred maintenance is divided by the current replacement value. The higher the FCI the poorer the condition of the facility.

Adequacy Index: Adequacy Index (AI) is a metric based on a set of questions that measures a school's compliance with set standards. The higher the AI the less the school complies with the standards.

While only a few schools on the list below have FCI and associated AI, Division of Capital Construction is actively working to replace the aging 2010 Assessment Score with updated FCI data over the ensuing years.

SUMMARY OF FINDINGS						
SCHOOL PERFORMANCE FRAMEWORK 2017 RATING	AVERAGE YEAR BUILT	MEDIAN YEAR BUILT	AVERAGE ASSESSMENT SCORE FOR HEALTHY OCCUPANTS	MEDIAN ASSESSMENT SCORE	AVERAGE FACILITY CONDITION INDEX	AVERAGE ADEQUACY INDEX
Top 100 Scoring Schools Which Received a "Performance Plan" Rating. Scores Between 100 and 86.9.	1982	1990	4	4	0.26	0.14
Lowest 32 Scoring Schools Which Received a "Turnaround Plan" Rating. Scores Between 53.9 and 25.	1963	1960	3	4	0.42	0.29

Section 6 – Brief Summary of Projects Not Funded Previous Cycle

Section 22-43.7-111(1)(d), C.R.S.: A list of the financial assistance applications for public school facility capital construction that were denied financial assistance during the prior fiscal year, which must include a sub list of denied applications for projects for which financial assistance in the form of technology grants was requested pursuant to section 22-43.7-109 (13), that includes for each project:

- (I) A brief project description;
- (II) A statement of the amount and type of financial assistance requested for the project;
- (III) A statement indicating whether or not the board recommended a financial assistance award for the project; and
- (IV) A summary of the reasons why the board or the state board denied financial assistance for the project.

- A sub list of technology grants is not included as no technology grants were applied for in FY 2017-18.

DISTRICT/SCHOOL	PROJECT DESCRIPTION	BEST REQUEST AMOUNT	APPLICANT MATCHING CONTRIBUTION	TOTAL REQUEST BEST & MATCHING CONTRIBUTION	COMMENTS
Manzanola 3J	New PK-12 School	\$ 197,701,329.00	\$ 4,978,773.80	\$ 24,748,904.25	The project qualified as a priority 1 project for the BEST grant program and was awarded financial assistance but was unable to secure matching funds through a local bond initiative.
Hayden RE-1	Sr HS Replacement and ES	\$ 41,056,537.00	\$ 22,296,400.00	\$ 63,352,937.00	The project qualified as a priority 1 project for the BEST grant program but it could not be funded this cycle due to the limited funds available. The CCAB shortlisted this project but felt it was less urgent than many of the other projects submitted this cycle.
Atlas Preparatory School	MS Roof Replacement	\$ 174,509.91	\$ 106,957.69	\$ 281,467.60	The project qualified as a priority 1 project for the BEST grant program but it could not be funded this cycle due to the limited funds available. The CCAB shortlisted this project but felt it was less urgent than many of the other projects submitted this cycle.
Montrose County RE-1J	CMS Roof Replacement	\$ 171,724.07	\$ 280,181.38	\$ 451,905.45	The project qualified as a priority 1 project for the BEST grant program but it could not be funded this cycle due to the limited funds available. The CCAB shortlisted this project but felt it was less urgent than many of the other projects submitted this cycle.
Swallows Charter Academy	Modular Replacement	\$ 15,711,467.15	\$ 247,361.85	\$ 15,958,829.00	The project qualified as a priority 1 project for the BEST grant program but it could not be funded this cycle due to the limited funds available. The CCAB shortlisted this project but felt it was less urgent than many of the other projects submitted this cycle.
Englewood 1	Bishop ES Replacement	\$ 7,444,081.20	\$ 11,166,121.80	\$ 18,610,203.00	The project qualified as a priority 1 project for the BEST grant program but it could not be funded this cycle due to the limited funds available. The CCAB shortlisted this project but felt it was less urgent than many of the other projects submitted this cycle.

Section 7 – Capital Construction Assistance Fund Projected Fund Balance

Section 22-43.7-111(1)(e), C.R.S.: An estimate, to the extent feasible, of the total amounts of revenues to be credited to the assistance fund during the current fiscal year and the next fiscal year and financial assistance to be awarded during the next fiscal year, including separate estimates of the total amounts of financial assistance to be awarded as cash grants and under the terms of lease-purchase agreements entered into pursuant to section 22-43.7-110 (2).

	FY 2018-19 Projected Cash Flow	FY 2019-20 Projected Cash Flow
Beginning Fund Balance (July 1)	\$ 392,759,943	\$ 439,717,247
Revenue:		
State Land Revenues	\$ 56,000,000	\$ 40,000,000
Matching Moneys	\$ 29,005,813	\$ 32,311,485
Marijuana Excise Tax Revenue	\$ 50,040,000	\$ 45,450,000
Colorado Lottery Proceeds	\$ 1,000,000	\$ 1,000,000
Interest Earnings	\$ 3,927,599	\$ 3,608,614
Total Revenues	\$ 139,973,412	\$ 122,370,099
Expenses:		
Program Administration	\$ 1,611,108	\$ 1,612,720
Statewide Facility Assessment Contract	\$ 150,000	\$ 150,000
Charter School Capital Construction	\$ 6,255,000	\$ 5,681,250
Cash Grant Awards	\$ 85,000,000	\$ 85,000,000
Total Expenses	\$ 93,016,108	\$ 92,443,970
Ending Fund Balance (June 30)	\$ 439,717,247	\$ 469,643,376
Committed Funds*	\$ (144,314,306)	\$ (97,110,975)
Uncommitted Fund Balance	\$ 295,402,941	\$ 372,532,401

* Committed funds include the state and local share lease-purchase payments, public school facility emergency reserve, and encumbered cash grants. Detail on committed funds provided below.

Committed Funds	FY 2018-19	FY 2019-20
State and Local Share Lease Purchase Payment	\$ (79,002,280)	\$ (79,110,975)
Public School Facility Emergency Reserve	\$ (1,000,000)	\$ (1,000,000)
Cash Grant Awards-FY16-17 cycle	\$ (20,321,201)	
Cash Grant Awards-FY17-18 cycle	\$ (43,990,825)	\$ (17,000,000)

Assumptions:

- BEST cash grant recipients awarded during the FY 2016-17 cycle will expend 100% of the remaining award balance (\$20m) in the third fiscal year (FY2018-19).
- BEST cash grant recipients awarded during the FY 2017-18 cycle will expend approximately \$44m in the second year (FY2018-19) and \$17m in the third year (FY2019-20).
- BEST cash grant recipients awarded during the FY 2018-19 cycle will expend 100% of the total award (\$85m) in the first fiscal year (FY2018-19).
- Assumes approximately 20% (\$17m) of funds awarded during the FY 2018-19 cycle will still be encumbered in FY2019-20.
