1/ Illustrates school districts that may be required to seek voter approval to impose the higher calculated mill levies in the proposed bill. Failure to either seek or receive voter approval results in the total program differences between Table 2 and Table 3, which are partially offset by hold harmless provisions in the bill.

2/ Under the proposed bill, five school districts will not decrease their current mill levies. Therefore, they will generate \$1.15 million in property taxes that will exceed their total program levels under the bill, of which \$1.0 million will count towards cost-of-living overrides. The balance goes toward categorical buyout.
