Roles and Permissions in GAINS

Roles in GAINS

- GAINS is a roles-based system, and roles must be assigned to complete and submit applications. A user role is a set of permissions that allows a person to enter and edit grant applications, view grant data, complete monitoring, and reporting requirements, submit revisions, approve various workflow steps, and more.
- Please keep in mind the following aspects of User Roles:
 - A role grants a set of permissions,
 - A user can have more than one role,
 - A role can be assigned to more than one user, and
 - Every organization **MUST** have a LEA Fiscal Representative and LEA Authorized Representative assigned to submit applications and create fund requests.
- The system uses LEA (Local Education Agency) verbiage for all external users accessing the system, even if not a school district related-entity.

Roles for State Grants to Libraries

- **LEA State Grants for Libraries Application Director-** Authorized to create and complete named grant. The specific person managing the grant if this is not a centralized role for your organization.
- **LEA Fiscal Representative-** The Fiscal Representative is authorized to approve grants, complete and submit requests for funds, and will receive fiscal related communication regarding the application. Usually the Fiscal Manager, but other personnel can also have this role in your budgeting office.
- **LEA Authorized Representative-** The Authorized Representative is the individual authorized to provide final LEA approval and submit the application to CDE on behalf of the LEA. This individual will receive the Grant Award Letter (GAL). Can be anyone at the organization who has authority to approve an application.

*One person could serve in all three roles
