

# 2021-2022 Documentation of a Tuition Cost Rate for Public Charter Schools - Data Elements, Definitions, and Instructions

**Purpose:** The purpose of the application for documentation of a tuition cost rate for a public charter school is to provide a means for public charter schools to submit education staff and budget cost line item data necessary for the Department to calculate a tuition cost rate.

**Application Expectation:** Each tuition cost application will include staff employed in:

- 1) Job Code 202-Special Education Teacher who is appropriately licensed and endorsed in an area of special education specific to the student disabilities served in the program. A one teacher public charter school program cannot employ a special education teacher on temporary status (TEE-Temporary Educator Eligibility) who is not fully licensed and appropriately endorsed in special education.
- 2) Job Code 102-Special Education Director who is appropriately licensed and endorsed in Director of Special Education, or Job Code 104-Instructional Supervisor who is appropriately licensed and endorsed in an area of special education specific to the student disabilities served in the program; this may be a full or part time staff employed by the public charter school, or employed on a contractual basis.

**NOTE:** Staff employed in positions requiring a CDE license will only be included in the tuition cost calculation if they hold a CDE license and endorsement appropriate for the Job Code / Staff Title.

All education costs reported in the application are proportionate to students identified with a disability and must be expended (spent or purchased) within the school year of the application. It is not appropriate to report expenses if activities are not fulfilled or items are not purchased within the school year of the application.

The Exceptional Children's Educational Act (ECEA) contains provisions related to costs for educating students with disabilities who enroll in and attend a district or institute charter school. When a child with a disability enrolls in and attends a public charter school, the district of residence is responsible for paying the excess costs incurred in educating the student based on costs reported to the Department for the establishment of a tuition cost rate.
