

Teacher Quality Standard II

Teachers establish a safe, inclusive, and respectful learning environment for a diverse population of students.

The most important action an effective teacher takes at the beginning of the year is creating a climate for learning.

—Mary Beth Blegan, former U.S. Department of Education teacher-in-residence

A positive classroom environment enhances the academic achievement of all students, promotes appropriate classroom behavior, and is welcoming to families and adults. A respect for diversity and the uniqueness of each individual is valued. A sense of community is created in which members encourage and promote the learning of each other through collaboration, communication, and mutual respect as they work to achieve individual and common goals.
