¹ Lunch meal pattern quantity requirements allow for an overlap across grades K-8.

²The weekly maximum quantities for grains and meat/meat alternates are recommended.

Fruit

The reimbursable meal selected by the student under offer vs. serve must include at least ½ cup of fruit and/or vegetable. All juice must be 100% full-strength. The total weekly fruit/vegetable juice offerings may not exceed one-half of the total fruits/vegetables offered over the week. Minimum creditable serving is 1/8 cup. One quarter-cup of dried fruit counts as ½ cup of fruit.

Vegetables

Minimum creditable serving is 1/8 cup. One cup of leafy greens counts as ½ cup of vegetables. The *Other* vegetable requirement may be met with any additional amounts from the dark green, red/orange, and beans/peas/lentils subgroups. Any vegetable subgroup may be offered to meet the *Additional* total weekly vegetable requirement. Beans/Peas/Lentils offered as a meat alternate can count toward the weekly vegetable subgroup requirement.

Grains

At least 80% of the grains offered per week must be whole grain-rich products that conform to FNS guidance in the [Whole Grain Resource](#). Each service line should be considered separately.

Meat/Meat Alternate

Must use the Food Buying Guide, CN label, or product formulation statement to determine ounce equivalents.

Milk

Fluid milk must be low-fat or fat-free (unflavored or flavored). Two varieties of milk must be available throughout the meal service.
