${ }^{1}$ Lunch meal pattern quantity requirements allow for an overlap across grades K-8.
${ }^{2}$ The weekly maximum quantities for grains and meat/meat alternates are recommended.

## Fruit

The reimbursable meal selected by the student under offer vs. serve must include at least $1 / 2$ cup of fruit and/or vegetable. All juice must be $100 \%$ full-strength. The total weekly fruit/vegetable juice offerings may not exceed one-half of the total fruits/vegetables offered over the week. Minimum creditable serving is $1 / 8$ cup. One quartercup of dried fruit counts as $1 / 2$ cup of fruit.

## Vegetables

Minimum creditable serving is $1 / 8$ cup. One cup of leafy greens counts as $1 / 2$ cup of vegetables. The Other vegetable requirement may be met with any additional amounts from the dark green, red/orange, and beans/peas/lentils subgroups. Any vegetable subgroup may be offered to meet the Additional total weekly vegetable requirement. Beans/Peas/Lentils offered as a meat alternate can count toward the weekly vegetable subgroup requirement.

## Grains

At least $80 \%$ of the grains offered per week must be whole grain-rich products that conform to FNS guidance in the Whole Grain Resource. Each service line should be considered separately.

## Meat/Meat Alternate

Must use the Food Buying Guide, CN label, or product formulation statement to determine ounce equivalents.

## Milk

Fluid milk must be low-fat or fat-free (unflavored or flavored). Two varieties of milk must be available throughout the meal service.
