### A high quality assessment should be...Scored using Clear Guidelines and Criteria

<b>Scoring Guide Present</b>	<b>Check all that apply:</b>	<b>Comments</b>
<input type="checkbox"/> Answer key, scoring template, computerized/machine scored	x	
<input type="checkbox"/> Generalized Rubric (e.g., for persuasive writing, for all science labs)	x	
<input type="checkbox"/> Task-Specific Rubric (only used for the particular task)		
<input type="checkbox"/> Checklist (e.g., with score points for each part)		
<input type="checkbox"/> Teacher Observation Sheet/ Observation Checklist		
	<b>Rating Column</b>	
<b>2a. Does the rubric/scoring criteria align to Colorado Academic Standards in this assessment. Provide an explanation of your response:</b> The rubrics are general in nature vs. specific to the wording found within the standards (i.e. rubric mentions "core concepts" but doesn't specifically mention or align to the wording within the standards) However, the scoring criteria does in fact partially align to the state standards (i.e. vocabulary, work choice, etc.)	Yes=3, Somewhat=2, No=1	
<b>Rubric Aligned to Standards Rating</b>	<b>2</b>	
<b>2b. Are the score categories clearly defined and coherent across performance levels? Provide an explanation of your response:</b> Yes - the rubric does provide a breakdown of each performance level (4,3,2,1) and they are clear and coherent.	Yes=3, Somewhat=2, No=1	
<b>Rubric/Scoring Coherent Rating</b>	<b>3</b>	
<b>2c. To what degree does the rubric/scoring criteria address all of the demands within the task or item? Provide an explanation of your response.</b> Due to the holistic nature of the rubric (based on its defined purpose to be general so it can be applied to multiple things) there is a slight loss in meeting each of the demands of the assessment	High=3, Moderate=2, Low or None=1	

Rubric/Scoring Aligned with Task Rating	3	
2d. Based on your review of the rubric/scoring criteria, do you think the scoring rubric would most likely lead different raters to arrive at the same score for a given response. Provide an explanation of your response. Scorers would be advised to add their specific "analytic rubric" verbiage to the holistic rubric to improve this score. In other words, teachers would add to the rubric to make the rubric more demanding and reflective of classroom instruction	Yes=3, Somewhat=2, No=1	
Rubric/Scoring Different Raters Same Rating	2	
2e. Is there student work (e.g., anchor papers, video, portfolio) which illustrates student mastery? If so, describe. If not, what student work would be needed? 2 exemplars were provided for the assessment	Yes=3, Somewhat=2, No=1	
Student Work Samples Rating	3	

## A high quality assessment should be...FAIR and UNBIASED

FAIR and UNBIASED (the areas below should be discussed relative to the needs of ELLs, gifted and talented students, and students with disabilities)	Rating Column	Comments
3a. To what extent are most of the items or the tasks designed and formatted to be visually clear and uncluttered (e.g., use of white space, graphics, and illustrations)? Provide an explanation of your response: Assessment is clear and formatted	High=3, Moderate=2, Low=1	
Clear & Uncluttered Rating	3	
3b. To what extent are most of the items or the task presented in as straightforward a way as possible for a range of learners? Provide an explanation of your response: Assessment is clear and straightforward	High=3, Moderate=2, Low=1	
Straight Forward Rating	3	
3c. To what degree is the vocabulary and context(s) presented by most of the items or task free from cultural or other unintended bias? Provide an explanation of your response: Vocabulary is clear yet could be difficult for certain students in different demographic areas (i.e. conflict of "registered dieticians" possibly not being available or known in certain areas)	High=3, Moderate=2, Low=1	
Free of Cultural or Unintended Bias Rating	2	
3d. Does the assessment use appropriate levels of academic language for the grade and content area? Provide an explanation of your response. Assessment does a good job of being appropriate for both the grade level and content area	Yes=3, Somewhat=2, No=1	
Academic Language Rating	3	
3e. Does the assessment limit the usage of words that can be confused with one another (homonyms)? (Examples: ate/eight; sell/cell; allowed/aloud; beet/beat; by/buy). Provide an explanation of your response. Vocabulary or word choice is well written and would not be confused with other terms	Yes=3, Somewhat=2, No=1	
Confusing Language Rating	3

3f. If applicable, what type of accommodations are provided to ensure that English Learners and/or Students with Disabilities can fully access the content represented by the task or set of items reviewed? Provide an explanation of your response.		
Accommodations are commonly categorized in five ways: presentation, response, setting, and timing and scheduling:		
o Presentation Accommodations—Allow students to access information in ways that do not require them to visually read standard print. These alternate modes of access are auditory, multi-sensory, tactile, and visual.		

<ul style="list-style-type: none"> <li>o Response Accommodations—Allow students to complete activities, assignments, and assessments in different ways or to solve or organize problems using some type of assistive device or organizer.</li> <li>o Setting Accommodations—Change the location in which a test or assignment is given or the conditions of the assessment setting.</li> <li>o Timing and Scheduling Accommodations—Increase the allowable length of time to complete an assessment or assignment and perhaps change the way the time is organized.</li> <li>o Linguistic Accommodations—Allow English language learners (ELLs) to access academic construct measured by reducing the linguistic load of an assessment. The accommodation is based on an ELL’s limited English language proficiency, which is different than an accommodation based on a student’s disability or a cognitive need.</li> </ul>		
<b>3g: Are there adequate accommodations permitted for this assessment? Provide an explanation of your response. Provide an explanation of your response.</b> It does not provide any accommodations but there could be easy modifications added by teacher.	Yes, Some identified=2; None identified =1	
<b>Adequate Accommodations Allowed Rating</b>	<b>1</b>	

### **A high quality assessment...Increases Opportunities to Learn**

Opportunities to Learn <i>(the areas below should also be discussed relative to the needs of ELLs, gifted and talented students, and students with disabilities)</i>	Rating Column	Comments
<b>4a. Does this assessment engage a student in thinking that connects to a real world, new context, situation, problem or challenge? Provide an explanation of your response:</b> We felt that the appropriate nature for a 6th grade "real world" connections is good but not at the highest standard. Ex - 6th grade might not actually have personal connection to heart disease mentioned in the assessment. However, questions that they would connect with are nutrition labels, advice on gaining "appropriate weight" (i.e. athletics).	High=3; Moderate=2; Low or None=1	The assessment does a good job of providing a base of understanding towards standards and the level of DOK.
<b>Engagement Rating</b>	<b>2</b>	
<b>4b. To what extent do you think the knowledge and skills tested by the assessment can provide good information about what students have learned in the classroom? Provide an explanation of your response:</b> The assessment uses a variety of avenues to allow students to show learning - i.e. selected response, short answer, extended response are all in the same assessment. The coverage of the evidence outcomes cover 2 out of the 4 in the GLE.	High=3; Moderate=2; Low or None=1	
<b>Classroom Learning Rating</b>	<b>2</b>	
<b>4c. To what degree do the results from this assessment (scores and student work analysis) foster meaningful dialogue about learning expectations and outcomes with students and parents? Provide an explanation of your response:</b> This is a DOK level 1-3 so providing meaningful feedback about critical thinking skills at a higher level is somewhat evident. The reality of dialogue would be specific to student interest (i.e. gaining appropriate weight if they want, etc.).	High=3; Moderate=2; Low or None=1	
<b>Learning Expectations/Outcomes Rating</b>	<b>2</b>	
<b>4d. To what extent do you believe the assessment can clearly communicate expectations for academic excellence (e.g., creativity, transference to other content areas or 21st Century skills) to students? Provide an explanation of your response:</b> DOK is a level 1-3 so the opportunity for true 21st century skills could occur. Keeping in context that this is a 6th grade response so the sophistication of the responses may be limited yet at least are expecting higher level thinking.	High=3; Moderate=2; Low or None=1	
<b>Communicate Academic Excellence Rating</b>	<b>2</b>	
<b>4e. Based on the content evaluated by the task or the set of items reviewed, to what extent do you think teachers can use the results (scores and student work analysis) to understand what competency on standard/s look like? Provide an explanation of your response:</b> DOK is specific to content understanding. With the descriptors of describe, identify, etc. it would be easy to analyze student performance	High=3; Moderate=2; Low or None=1	

Competency on Standards Rating	2	
4f: Based on the content evaluated by the task or the set of items reviewed, to what extent do you think teachers can identify what purpose the assessment serves (e.g. diagnostic, report card grades, adjusting instruction, etc.)? Provide an explanation of your response: DOK being a level 1-3 we would see this as a summative piece to provide an idea of the overall student performance on the standards. Teachers would easily see this as the final assessment in a unit.	High=3; Moderate=2; Low or None=1
